MY FIRST DAY - GETTING TO THE PORT

On the first day we will go to the port where my ship is. I will give my suitcases to a nice person with a cart called a porter. They will take my suitcases to my room on the ship for me.

When I go into the building I have to go through a security screening. I might have to wait in a short line for my turn and I will have to listen and follow directions from the nice people at the security check.

CHECKING IN

When I leave the security screening area I will see nice people who will tell me where we need to check in. There might be lots of people but I won't have to wait long. Then it's time to get on the ship!

There is so much to see and do on the ship. I can take the stairs or one of the ships elevators to get around. There are two types of elevators on my ship. One elevator is made with windows so I can look up and down as I ride to different decks.
